REO Seat New Zealand, Auckland

Working with Architectus, HUB provided technical and fabrication expertise for the cast bronze REO word art sculpture. The cast REO letters are lit from underneath and 'float' at the Library entrance. The sculpture sits on shock absorbing mounts should a vehicle collide with a REO letter - given the number of dents in the cast letters, this system has proven successful.

CLIENT
Auckland City Council

HUB ROLE
Supply of a custom suite of furniture for Landscape Architect 'Architectus' in collaboration with Auckland City Council.
