### GPR Bus Shelter

#### Australia, Sydney, Glebe Point Road

HUB was engaged to work through the design detailing and production of a unique street scape element which incorporates a vibrant array of custom coloured panels on Glebe Point Rd, Sydney. The strong effect is echoed in the school fence behind the shelter.

Highly regarded public artist Nuha Saad designed these elements in response to the vibrancy of Glebe's contemporary culture and its architectural and social history.

HUB always enjoys working on unique projects of this nature - the technical challenges, the practical considerations and the strength of the final result.

CLIENT  
City of Sydney

HUB ROLE  
HUB was approached to supply a custom bus shelter for Glebe Point Road, that was to match the fence panel system at Glebe Point Road Public School.
